Stitching Line

1. Stitch 2 layers of fleece 2" from edge, leaving opening for stuffing.
2. Cut away 2" square from each corner. (Do not cut into stitching)
3. Cut fringe 3/8" - 3/4" wide all around from edge of fabric to about 1/8" from stitching. (Do not cut into stitching)
4. Stuff lightly and insert wooden heart.
5. Tie matching strips (front and back) together. Important - either stitch opening closed before tying fringe or tightly double knot fringe at opening. Single knot okay for rest of fringe.
